

SHELTERS - TUNNEL

Thanks to their versatility, our greenhouses are also used as shelters, covered storage structures for different necessities, e.g. for hay, farm equipment and other products, which require a covering. They are designed to reach heights suitable for safely storing bulky farm equipment. These storage structures are available in straight sided or tunnel design.

TECHNICAL SPECIFICATIONS

- Hot galvanized iron structure, highly resistant to corrosion
- Base extensions Ø 60/76, thickness 3 mm length 1.50 – 2.50 m
- Structure with or without tie-beam according to the place of installation and height requirements
- Covering of extremely long-lasting storage sheeting 44/57-month warranty, available in different colours
- Optional covering of 650 gr/sq m PVC tarpaulin available in different colours
- Film fixed by means of aluminium profiles (wide range)
- Manual side fixing
- Film or polycarbonate headends with large hinged door
- Headends without doors and/or with roll-up opening
- The installation on the ground can be carried out by means of a base plate on slab or concrete footing, or, alternatively, with concrete foundation.

Standard width	Tube Ø	Tie-beam H	Ridge H
7.50 m	60 mm	3.50 m	4.50 m
8.00 m	60 mm	3.90 m	4.80 m
8.70 m	60/76 mm	3.90 m	4.80 m
9.50 m	60/76 mm	4.50 m	5.40 m
10.00 m	60/76 mm	5.00 m	5.90 m
